

Short Biography

RESONDRY ZAFIMIHARISOA Stassia.

Graduated in September 2011, I received the MSc degree in Ubiquitous Networking and Computing at the **University of Nice Sophia Antipolis (UNS)**, in France. I am currently a PhD student in Computer science within the **University Blaise Pascal Clermont-Ferrand (UBP)**, France. This PhD thesis is hosted at **LIMOS**¹ laboratory and at the **OPENIUM**² Company for the 2nd year. The general topic of my thesis is "*The security testing of mobile device applications*". My main research interests are focused on the **vulnerability of mobile applications** and **security model based testing**. I can be contacted at: s.zafimiharisoa@openium.fr.
